DISTRIBUTION CENTERS

Guadalajara, MX | Toronto, CA | Washington, USA

We send consolidated trailers on a frequent basis to our distribution centres to lower costs for our customers and to provide easy access to our products.

CARE FOR YOUR PRODUCTS

Beeswax or Howard Orange Oil can be used for cleaning, and will keep the product looking like new. Touch up pens can be purchased at your local Mohawk or paint store and can be used for maintenance and care.

Original Bee's Wax is a safe, reliable polish that works great on many of our products. It is the one furniture polish that won't leave behind finger prints and does not cause wax build up. Not only is it great for LH products, but it can also be used on marble, mirrors, leather, and painted surfaces.

D-Bodhi Narrow Coffee Table
DBA30
WDH": 63.75 x 15.75 x 13.75

D-Bodhi is a collection like no other. It features recycled teak wood, which provides durability and sturdiness to all items. The wood is sourced from support beams and outer panels of old houses which gives each piece a unique character.

D-Bhodi's reclaimed wood comes from old houses in remote villages. Extended families in rural settlements tucked into the hills of East Java still build beautiful simple knock-down wooden homes made of abundantly grown teak from that area. It has been an ongoing tradition for Javanese families to keep their homes for three generations of the family, before tearing it down and building new, for the next three generations. It is from these torn down houses that majority of the wood comes from.

Inspired by Irish carpentry work from more than 200 years ago, the LH Imports' Irish Coast collection is crafted of both reclaimed and recycled wood. Created from a jigsaw type construction made popular in 18th century Ireland, the collection is bench-built and hand-finished with up to 18 color applications to provide a genuine rustic charm.

In addition, the recycled wood comes from old timber, formerly used as cable reels, bridge beams, pallets and torn down buildings throughout the Northern Hemisphere. This includes hardware and fittings manufactured of recycled metal or brass.

Going for that traditional look and feel? Our Lifestyle African Dusk collection will meet your modern day needs while staying true to its heritage. It's a combination of functionality and classic style. Each piece has been hand built to a superior standard by craftsmen, using only FSC certified recycled or reclaimed wood. The discarded wood is collected, and old nails removed prior to being kiln dried for 26 days. These items are then produced in old English carpentry style with up to 18 hand-brushed multi-step finishes.

Categories: Accessory, Dining

This rustic-contemporary collection is made with dense acacia tops, and brushed stainless steel bases. Our Verde items are hand-crafted and hand finished. Internal live edge splits run through the center of each piece and are connected by butterfly joints. These unique joints may be found on any part of the wood surface. This technique is an old craftsmanship trick used to stabilize cracks, while at the same time providing a unique focal point on the wood design.

Original Vintage Espresso

Not all leathers are created equal. Most of the world's leathers today are processed, pigmented, painted, stripped, and corrected, often with heavy layers of artificial coatings and treatments. Poor quality leather is often hidden underneath uniform artificial coatings that make them look more appealing. But while they look good brand new, they do not last. Scratches, stains, and stretching can quickly degrade the surface and furniture soon wears out.

Country of Origin: China
Material: Top rain leather,
Finish: Various
Style: Mid-Century Modern, Transitional

LH Imports' Free Hand collection uses only special selections of top tier hides, and finishes them entirely by hand, using a process that can take up to 3 days for each hide. No heavy pigmentation, no grain correction, just translucent dyes that are worked deep into the leather while ensuring its beautiful, natural, properties are preserved.

Namaste Green Rugs

All rugs are hand knotted and over dyed. Although we have categorized our rugs into various colour groups, there is still a large variation in colour. All rugs are made with natural dyed hand spun sheep wool in tribal areas of Pakistan. No two rugs will look the exact same and the end product will most likely sit somewhere in the given colour spectrum shown.
